METALLIC PAINTED SIZE CHART

MATTE SERIES

Over 100 years ago, Russian and Nordic Region fishermen used to smoke spoons for pike and Tungsten ice jigs for bream and roach to dull the finish. The Fisherman's theory was that a matte lure appears to be of it's original size for fish, when a glitter lure may be interpreted by fish as a larger one.

Introducing the FISKAS Matte Series in 15 fish catching color patterns with a fine finish and details. Available today, give yourself the edge and get some now!

MATTE SERIES SIZE/PRICE CHART

Made From TUNGSTEN

fiskas™ WOLFRAM JIGS

"Sticky Sharp Hooks"

HANDPAINTED SERIES All Handpainted FISKAS Jigs are available in up to seven sizes ranging 2.5 mm to as large as 9mm. General sizing for FISKAS Wolfram Jigs are as follows: Gill's: 3mm & 4mm; Crappies/Perch: 4mm & 5mm; deep water targets 6mm. For those gin clear lakes (WI, MN, ND) downsize to 2.5mm can make the difference between a tough bite and a good day on the ice or open water.

JONTTU COMPETITION SPORT ROD \$24.99

Jonttu Sport Rod from Finland was designed for competition fishing in the Nordic Regions. The body and reel parts are made of ABS plastic which retains high strength at low temperatures. The tip of the rod is made of fiberglass and outfitted with a sensible indicator. The working length of indicator can be adjusted. Indicator has 2 rings for your line.

The drum braking is continuously variable. Drag is automatically triggered by the strike or playing a big fish. Braking is controlled by turning the rod. Lower the rod tip for free spooling.

The high precision parts prevent reel misalignment and malfunctioning. Foam storage section to hook your lure while not in use. Back of reel has molded ridges, run your fingernail across the ridges to add vibration and jig play.

Rod Blank measures 7"

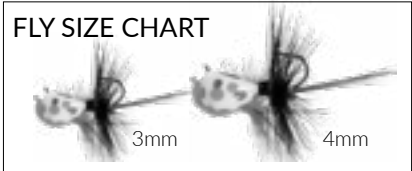

Foam for parking the jig while not in use. *Note: Sport Rod in photos left are not actual size.*

fiskas™

"Sticky Sharp Hooks"

FLY SERIES

For 21 years FISKAS has been your go to for top quality tungsten jigs with sticky sharp hooks that have proven time and time again they are producers. We are so excited to announce these top selling Handpainted Jigs and produced the best quality flies you can find on the market today. Premium Hand-Tied Flies. 3 & 4mm ONLY.

Tail color may vary.

fiskas™ BALANCES

"Sticky Sharp Hooks" \$1.99

BEAVER TAILS \$6.99

Beaver Tail Panfish Bites is a revolutionary lure that replaces live bait. This lure has a natural meat scent and a life-like natural feel. Beaver Tail Panfish Bites natural buoyancy allows it to move with the slightest twitch of the rod tip. This allows for new adaptations on old presentations and the potential for new presentations all together. Beaver Tail Panfish Bites have a durability that is unparalleled by plastic or live bait.

- BT01 Hot Pink
- BT03 Hot Chartreuse
- BT07 Black Pearl (**NEW 2024-25)
- BT08 Blood Red (**NEW 2024-25)
- BT12 Natural White
- BT14 Purple Grape (**NEW 2024-25)

If you're looking for a lure that's more life-like, natural scented, and durable than anything out there....You're in the right place. BeaverTail Bait because the rest is just plastic!

SB33 FLAME RED-ORANGE "THE PULSE"
Perfect for the tournament angler or those fishing the most finicky of fish! Also perfect for palm rods!

TIE-ON SPRING BOBBERS \$12.49

These spring bobbers are made in Michigan by Captain Matt Strong, a charter fisherman on Lake Michigan, as well as an avid ice-fisherman who has been fishing the NAIFC tournament series and has qualified for the NAIFC Series Championship in Mille Lacs, MN, December 2015. Tie directly to the last inch of your rod tip to secure in place. All models are single strand, super elastic, non-kinking titanium.

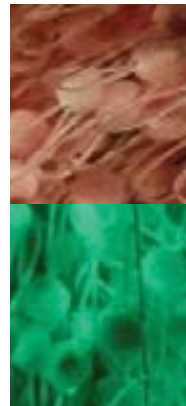

WHAT ICE STRONG BOBBER DO I NEED?

Model	Titanium Strand	Weight	Ideal For
SB26, 27, 28	.016	Original	2.5mm-5mm Tungsten Jigs
SB29, 30, 31 (UL)	.014	Ultra-Lt.	Up to 3mm Tungsten Jigs
SB32 (XL)	.0120	Heavy	Dead Stick/Jigging Spoons
SB33 (Pulse)*	0.010	Pulse	2mm-3mm Tungsten Jigs/Ice Flies

*The Pulse - So Sensitive, You Can SEE Your Pulse!

WAYS TO ATTACH YOUR ICE STRONG TITANIUM SPRING BOBBER

- 1) Tie your bobber direct to your rod tip with rod building thread and a dab of glue.
- 2) Use a dab of glue and shrink tubing over the rod tip. Shrink it down with a heat gun.

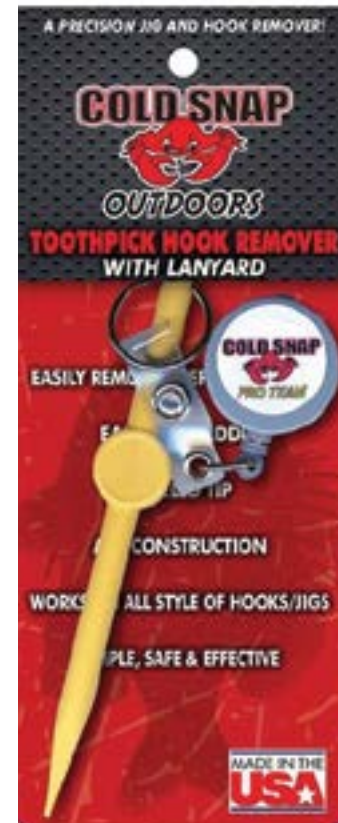

COLD SNAP PANFISH TOOTHPICK

There are many advantages to fishing with tungsten FISKAS Wolfram Jigs. Low cost is not on one of them. Removing a deep hooked jig from a fish with forceps or pliers will often cause the paint to flake off the jig, or breakage of the hook shank. This handy tool will save you time and money on the ice! The Toothpick is also available with a retracting 24" lanyard so that it is always close at hand while fishing. Use summer or winter. Simple, safe and effective on all styles of hooks and jigs.

CSTP Toothpick Hook Remover
CSTPL Toothpick Hook Remover w/Lanyard

MODEL	LENGTH in.	PRICE ea.
CSTP	5 1/4"	\$4.99
CSTPL	5 1/4"	\$7.99
